Website:	www.olife-energy.com

We develop state of the art energy storage solutions. Olife seeks to provide a clean and efficient car starting battery of the future. We value environmental sustainability and because our solutions are highly cost effective in the longer term, we also help to foster global economic growth. Our manufacturing process does not create any health, safety or environmental challenges. Using our solutions helps to reduce greenhouse gases and reduces fuel consumption. Our product is also easier to recycle.
